HOWHECURED

HIS CATARRH

I wrote you some time ago, giving you an account of my

sufferings with an awful case of Catarrh. I had all the symp-

toms which accompany this disease, such as mucus dropping

back into the throat, a constant desire to "hawk and spit,"

feeling of dryness in the throat, cough and spitting upon

arising scabs forming in the nose which required much effort

to blow out, sometimes causing my nose to bleed and leaving

me with a headache. I had thus suffered for five years, all the

time trying different local treatments of inhalations, snuffs,

douches, etc., with no real good effect. Of course I was greatly

discouraged. As soon as I heard from you I commenced S. S. S.

as you advised and after using it a short while noticed a change

for the better. I continued to take it believing the trouble was

in the blood, and S. S. S. made a permanent cure for me. I am

with such cameo-like distinctness? The answer is: Several things, chief of which is the marvelously quick brain the champion possesses. He is several streets and five or six alleys ahead of the average opponent in figuring out a campaign and can put his ideas into such action as to befuddle a man who has to have time to make up his mind

Gotch has progressed far beyond is time. He is much ahead of American wrestlers in power and thought and just far enough in advance of the powerful and freakish foreign stars that are sent over here to practically dislodge his title to retain it for years to come. He gets hold on his opponents that

Esson seemed to break holds, but instantly in his efforts to get away, silpped and rolled into holds that were far worse than what he had the moment before escaped. It's a won-derful system, this wrestling scheme of Gotch's. It took years of patient toil and study and not a little intui-tiveness to get it where it is. But it is there, perfected as no one else has, been able to perfect it. been able to perfect it.
